DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings filed on 06/16/05 are accepted by the Examiner.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-12 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites a method using an apparatus while reciting the elements of apparatus and the steps of the method, this appears to be ambiguous since it fails to point out what is included or excluded by the claim language. This is confusing and unclear. Therefore, the claims are not further treated on the merits. Clarification and correction are required. Accordingly, the claims have not been further treated on the merits.
